

## CALLING FOR ABSTRACTS SUBMISSION

The 8th Annual Scientific Meeting (ASM) of the Singapore Society of Oncology (SSO) is to be held 7 - 9 July 2023. This is an in-person meeting, in contrast with Covid-induced virtual conferencing in the past few years.

We are excited to bring together the brightest minds from around the world to discuss the latest developments in oncology. The SSO ASM aims to bring to its participants a global scientific programme with balanced Asian and non-Asian studies. The conference provides a platform for clinicians and scientists to present their latest research and for practitioners to learn about the latest oncology treatment strategies. There will be sessions organised by the SSO-Cancer Immunotherapy Consortium (SSO-CIC) and the Asia Pacific Clinical Oncology Research Development (ACORD). The SSO ASM will be held at the National Cancer Centre Singapore – this is a new building, fully operational since March 2023.

Call for abstracts is now open. We are calling for abstract submissions in various oncological tracks. We accept abstracts previously submitted to other conferences in the past 12 months, but authors must ensure that their abstract submission does not infringe on copyright of the original conference.

*For submission of abstract under SSO-CIC, you may opt for your abstract to be considered for Society of Immunotherapy of Cancer's (SITC) Annual Meeting. For SITC, presenting authors cannot exceed 12 years after MBBS/ MD and 8 years after PhD.*

**Submission deadline: 5 June 2023**

**The top three submissions will receive cash awards :**

S\$500 first prize | S\$300 second prize | S\$200 third prize

*Selected abstracts will be eligible for Travel Grant  
(SGD \$1,500 for ASEAN and SGD\$2,500 for outside ASEAN)*
